Division of Student Life

Transportation Policy

Division of Student Life staff members often use both university and personal vehicles in their roles. Sometimes they are called on to be present for campus functions outside of normal business hours (e.g., for sporting events, receptions, work-related emergencies and other occasions which may be planned or unforeseen). These activities can take place on- or off-campus. As with regularly scheduled work responsibilities, it is your responsibility to obtain transportation to get to the location.

While parking on campus can be challenging, it must be in a legal, approved spot. Parking tickets administered due to illegal parking will not be paid for by the division, regardless of extenuating circumstances. Additionally, any moving violations are the responsibility of the driver.
